ShipTo

Shipping That's Smooth Sailing, From Warehouse to Doorstep.

ShipTo increases accuracy and efficiency in your shipping operations, easily.

Monitor and manage sales orders to ship products quickly and reliably. Easy to install and configure, process shipments directly, integrating UPS® WorldShip® and FedEx Ship Manager® with Microsoft® Dynamics GP and/or SalesPad GP.

After shipping with preferred carrier, shipping information, freight amounts and tracking information are automatically written to the appropriate fields in the sales documents. Orders are then forwarded in Workflow and managed through the invoicing process.

Features

- UPS® WorldShip® and FedEx Ship Manager® integration
- Monitor and prioritize ready-to-ship orders with Shipping Monitor
- Batch shipping with multiple item import
- Interface with Microsoft Dynamics GP and/or SalesPad GP
